

## ANEWBLISS

The first thing I want to say about this **NEWBLISS** is that the old "knowledge" symbol now means a 'gravestone'.

The second thing is that the "large circle" symbol now means just 'circle', or 'perfection'. A circle the same size as the mouth symbol but higher up and associated with the sky symbol means 'sun'.

The third thing is that the "x" symbol now means to 'crossout', not quantity, consistent with modern use in closing computer applications.

The fourth thing is that the "all" symbol now means literally 'nothing' as in crossing out.

Quantities are represented by dots.

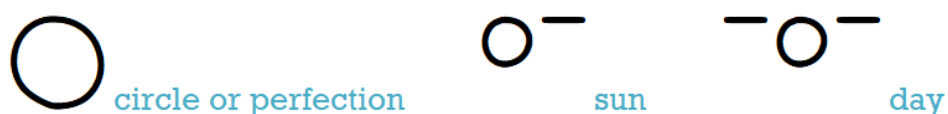

**ANEWBLISS** reverses the meanings of a few fundamental counter-intuitive symbols in Bliss such as the "negative sign" which is used for stuff we want to stay away from, as in the word "dislike" or "no". These ideas are "refusals" better represented by a vertical line which blocks rather than a horizontal line which connects.

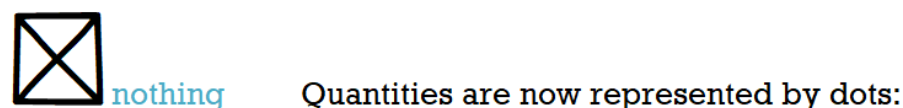

The old "knowledge" symbol now means "gravestone" which is what it looks like. The new symbol for mind looks more like a human head.

The "large circle" symbol which represented the sun now means "circle" or "perfection". A circle the same size as the mouth symbol but higher up and associated with the sky symbol now means "sun".

The "X" symbol now means to "crossout", not quantity, consistent with modern use in closing computer applications. So the "all" symbol now means literally "nothing" as in crossing out.
